Revision Date: 10/12/20

## SECTION 1: PRODUCT IDENTIFICATION

Product Name:	Z-Indirubin-D4
Catalog No.:	ESS0391
Product Use:	For laboratory research purposes

### **SECTION 2: HAZARDS IDENTIFICATION**

WHMIS Classification:	Not WHMIS controlled	
GHS Label elements:		
Signal word:	None	
Hazard statement:	Not a hazardous substance	
Precautionary statement:	None	
Response statements:	None	
HMIS Classification		
Health Hazard:	0	
Chronic Health Hazard:	Not available	
Flammability:		
,	0	
Physical Hazards:	0	
Potential Health Effects	May be harmful in case of inhalation. May cause respiratory tract irritation	
Inhalation:	May be harmful if absorbed through skin. May cause skin irritation.	
Skin:	May cause eye irritation.	
Eyes:		
Ingestion:	May be harmful if swallowed.	
Other hazards:	No data available.	
SECTION 3: COMPOSITION / II	NFORMATION ON INGREDIENTS	
Synonyms: Not av	railable	
Formula: C <sub>16</sub> H <sub>6</sub>	D4N2O2	
Molecular Weight: 266.2		
CAS No.: 90674	8-38-7, 479-41-4	
SECTION 4: FIRST AID MEASU	IRES	
	onsult a physician. Show this SDS. Move out of dangerous area.	
	llow the victim to rest in a well-ventilated area. Seek immediate medical attention.	
	fter contact with skin, wash immediately with plenty of water. Gently and thoroughly wash the contaminated skin with running water and	
	on-abrasive soap. Be particularly careful to clean folds, crevices, creases and groin. Cold water may be used. Cover the irritated skin	
	ith an emollient. If irritation persists, seek medical attention. Wash contaminated clothing before reusing.	
-	heck for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Cold	
14		
	ater may be used. Do not use an eye ointment. Seek medical attention.	
If swallowed:	ater may be used. Do not use an eye ointment. Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible

Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible dication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a ollar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. <b>EASURES</b> It for firefighters: Not flammable or combustible. SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. Do not use water jet. Wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. During a fire, toxic gases may be generated by thermal decomposition or combustion.	
If swallowed: ir c <u>SECTION 5: FIRE FIGHTING M</u> Conditions of flammability: Suitable extinguishing media	ater may be used. Do not use an eye ointment. Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible dication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a bilar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. EASURES It or firefighters: t for firefighters: Wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. During a fire, toxic gases may be generated by thermal decomposition or combustion.	
If swallowed: ir c <u>SECTION 5: FIRE FIGHTING M</u> Conditions of flammability: Suitable extinguishing media Special protective equipmen	ater may be used. Do not use an eye ointment. Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible dication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a ollar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. <b>EASURES</b> It for firefighters: Not flammable or combustible. SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. Do not use water jet. Wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. During a fire, toxic gases may be generated by thermal decomposition or combustion.	
If swallowed: ir c SECTION 5: FIRE FIGHTING M Conditions of flammability: Suitable extinguishing media Special protective equipmen Hazardous combustion prod	ater may be used. Do not use an eye ointment. Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible dication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a bilar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. EASURES At the firefighters: wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. During a fire, toxic gases may be generated by thermal decomposition or combustion. Hazardous decomposition products formed under fire conditions: carbon oxides (CO, CO <sub>2</sub> ), nitrogen oxides.	
If swallowed: ir SECTION 5: FIRE FIGHTING M Conditions of flammability: Suitable extinguishing media Special protective equipmen Hazardous combustion prod Explosion data:	ater may be used. Do not use an eye ointment. Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible dication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a bilar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. EASURES Not flammable or combustible. SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. Do not use water jet. Wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. During a fire, toxic gases may be generated by thermal decomposition or combustion. Hazardous decomposition products formed under fire conditions: carbon oxides (CO, CO <sub>2</sub> ), nitrogen oxides. No data available.	
If swallowed: ir SECTION 5: FIRE FIGHTING M Conditions of flammability: Suitable extinguishing media Special protective equipmen Hazardous combustion prod Explosion data: SECTION 6: ACCIDENTAL REI	ater may be used. Do not use an eye ointment. Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible dication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a ollar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. EASURES A.: SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. Do not use water jet. t for firefighters: Wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. During a fire, toxic gases may be generated by thermal decomposition or combustion. Hazardous decomposition products formed under fire conditions: carbon oxides (CO, CO <sub>2</sub> ), nitrogen oxides. No data available. EASE MEASURES	
If swallowed: ir SECTION 5: FIRE FIGHTING M Conditions of flammability: Suitable extinguishing media Special protective equipmen Hazardous combustion prod Explosion data: SECTION 6: ACCIDENTAL REI Personal precautions:	ater may be used. Do not use an eye ointment. Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible dication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a ollar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. EASURES Not flammable or combustible. SMALL FIRE: Use DRY chemical powder. LARGE FIRE: Use water spray, fog or foam. Do not use water jet. t for firefighters: Wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. During a fire, toxic gases may be generated by thermal decomposition or combustion. Hazardous decomposition products formed under fire conditions: carbon oxides (CO, CO <sub>2</sub> ), nitrogen oxides. No data available. EASE MEASURES Use proper personal protective equipment as indicated in section 8.	
If swallowed: ir SECTION 5: FIRE FIGHTING M Conditions of flammability: Suitable extinguishing media Special protective equipmen Hazardous combustion prod Explosion data: SECTION 6: ACCIDENTAL REI	ater may be used. Do not use an eye ointment. Seek medical attention. o not induce vomiting. Rinse mouth with water. Examine the lips and mouth to ascertain whether the tissues are damaged, a possible dication that the toxic material was ingested; the absence of such signs, however, is not conclusive. Loosen tight clothing such as a ollar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate medical attention. S	Expert Synthesis Solutions 700 Collip Circle London, ON N6G4X8 647-407-9078   info@esschemco.com www.esschemco.com	<b>SAFETY DATA SHEET</b> Version: 2 Revision Date: 10/12/20
	IRE CONTROL / PERSONAL PROTECTION	
Engineering Contro	Is: Use process enclosures, local exhaust ventilation, or other engineering controls to keep airbo exposure limits.	orne levels below recommended
Personal protective	equipment	
Respiratory protect	tion: Wear a NIOSH/MSHA or European Standard EN 149 approved full-facepiece airline respirat with emergency escape provisions.	or in the positive pressure mode
Hand protection:	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technic surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in a and good laboratory practices. Wash and dry hands.	
Eye protection:	Wear safety glasses with side-shields conforming to EN166 Use equipment for eye protection appropriate government standards such as NIOSH (US) or EN166 (EU).	n tested and approved under
Skin and body prot	ection: Wear appropriate gloves and clothing to prevent skin exposure.	
Hygiene measures:		preak and after the end of work day.
SECTION 9: PHYSIC	AL & CHEMICAL PROPERTIES	

Appearance:	Burgundy solid.
Odour:	No data available.
Odour threshold:	No data available.
pH:	No data available.
Melting point/Freezing point:	No data available.
Initial boiling point/boiling range:	No data available.
Flash point:	No data available.
Evaporation rate:	No data available.
Flammability (solid; gas):	No data available.
Lower flammable/explosive limit:	No data available.
Upper flammable/explosive limit:	No data available.
Vapour pressure:	No data available.
Vapour density:	No data available.
Solubility:	No data available.
Partition coefficient – n-octanol/water:	No data available.
Autoignition temperature:	No data available.
Decomposition temperature:	No data available.
Viscosity:	No data available.

## SECTION 10: STABILITY & REACTIVITY

Chemical stability:	Stable under recommended storage conditions.
Conditions to avoid:	Not available.
Possibility of hazardous reactions:	No data available.
Incompatibilities:	Strong oxidizing agents.
Hazardous decompositions products:	Hazardous decomposition products formed under fire conditions: carbon oxides (CO, CO <sub>2</sub> ), nitrogen oxides.

# SECTION 11: TOXICOLOGICAL INFORMATION

Acute Toxicity:	No data available.
Potential health effects:	
Inhalation:	May be harmful in case of inhalation. May cause respiratory tract irritation.
Skin:	May be harmful if absorbed through skin. May cause skin irritation.
Eyes:	May cause eye irritation.
Ingestion:	May be harmful if swallowed.
Signs and symptoms of exposure:	To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

### SECTION 12: ECOLOGICAL INFORMATION

Toxicity:	No data available.
Persistence and degradability:	No data available.
Bioaccumulative potential:	No data available.
Mobility in soil:	No data available.
Other adverse effects:	An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

 SECTION 13: DISPOSAL CONSIDERATION

 Product:
 Dispose in a manner consistent with federal, state, and local regulations.

 Contaminated packaging:
 Dispose of as unused product.

Expert Synthesis Solutions 700 Collip Circle London, ON N6G4X8 647-407-9078 | info@esschemco.com www.esschemco.com

# SECTION 14: TRANSPORT INFORMATION

TDG (Canada):	Not dangerous goods.
DOT (US):	Not dangerous goods.
IMDG:	Not dangerous goods.
IATA:	Not dangerous goods.
UN number:	Not available.
UN proper shipping name:	Z-Indirubin-D4, organic compound, solid.
Transport hazard class:	Not dangerous goods.
Packing group:	Not available.
Special precautions:	Ship at room temperature.

### SECTION 15: REGULATORY INFORMATION

General:	Not WHMIS controlled.
DSL/NDSL (Canada):	This product is not listed on the Canadian DSL/NDSL.
TSCA (US):	This product is not listed on the US EPA TSCA.
ECHA (EU):	This product is not listed on the EU ECHA.

### SECTION 16: OTHER INFORMATION

### Further Information

The above information is believed to be correct but does not purport to be all-inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regards to appropriate safety precautions. It does not represent any guarantee of the properties of the product. Expert Synthesis Solutions shall not be held liable for any damage resulting from handling or from contact with the above product.
